Tasting notes

Color

Orange with copper hues.

Aroma

Fresh and intense aromas of forest flowers.

Taste

Elegant and full bodied with a long finish. Notes of tart fruit followed by a strong minerality. Serving Suggestion: Best served without disturbing the contents of the bottle. The bottle should not be shaken, laid down in a horizontal position or transported in non-favorable conditions. If so, it should be rested a minimum of 2 days to settle in a vertical position. This is due to the fact that this wine has not been filtered. At no moment should the bottle be stored in a horizontal position, as the wine would be served in a hazy or non-clear state.
